Education

Vellore Institute of Technology, Andhra Pradesh
B.Tech in Computer Science Engineering (GPA: 8.45 / 10.00)

Oct 2022 – June 2026 (Expected)
Andhra Pradesh, India

Experience

NIELIT (Govt. of India) | Machine Learning Intern May 2025 – June 2025 (Remote)

- Completed 30+ hours of training on ML concepts including supervised learning, model tuning, and evaluation.
- Built and evaluated 2 end-to-end ML projects using Python, NumPy, and Scikit-learn.
- Applied techniques like normalization, train-test split, and accuracy scoring on real-world datasets.

Projects

Connectly – Real-Time Video Conferencing Web App | React, Node.js, WebRTC, Socket.io, MongoDB

- Developed a real-time conferencing platform supporting 2–10 participants with audio/video, chat, and screen sharing.
- Implemented WebRTC with Socket.io signaling to maintain end-to-end latency under 300ms.
- Integrated secure authentication, role-based access, and responsive UI with Node.js backend.
- Managed deployment, performance monitoring, and ongoing maintenance for stability.

Auralis – AI-Powered Personal Assistant | Python, OpenCV, Face/Speech Recognition, gTTS, Twilio API, SQLite

- Designed and implemented a **voice-activated personal assistant** capable of automating multiple daily tasks such as launching applications, retrieving weather updates, and initiating outbound calls.
- Integrated gTTS for 50+ dynamic prompts and Twilio API for automated communication.
- Used SQLite for persistent data storage enabling context-aware responses across sessions.
- Conducted functional testing and iterative improvements to enhance user experience.

Anime Recommendation System | Python, Streamlit, scikit-learn, Pandas

- Developed a hybrid recommendation engine combining collaborative and content-based filtering for 3,500+ anime titles.
- Optimized preprocessing and similarity computation, improving accuracy by 35% and reducing runtime by 25%.
- Deployed a Streamlit application delivering personalized recommendations in under 4 seconds.

Skills & Competencies

Languages: Java, Python, JavaScript, HTML5, CSS3, SQL
Libraries/Frameworks: React.js, Node.js, Express.js, Bootstrap, WebSocket.io, Pandas, NumPy, OpenCV, Matplotlib, scikit-learn
Databases: MongoDB, MySQL
Tools: VS Code, PyCharm, Google Colab, Git, GitHub, Linux, MS Office Suite, AWS
Coursework: Data Structures and Algorithm, OOPS, Operating Systems, DBMS, Data Analytics, Data Mining, Data Warehousing, Data Visualization, Artificial Intelligence, Machine Learning
Core Competencies: Problem-Solving, Analytical Thinking, Quick Learning, Collaboration, Communication Skills

Certifications

AWS Academy Graduate – Cloud Architecting
AWS Academy Graduate – Cloud Foundations
Microsoft Certified: Azure AI Fundamentals – Issued by Microsoft
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Issued by Oracle
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Issued by Oracle

Positions of Responsibility

Technical Lead, ACM Student Chapter, VIT AP – Directed 6+ technical events and oversaw club website maintenance.
Community Manager, Innovators Quest – Increased event participation by 40% via strategic planning and outreach.
Associate Event Lead, Women in Open Source – Coordinated 3+ events for 300+ participants with a 27-member team.
